Portfolio: zkrstic.dev

Motivated Frontend Developer with experience building scalable and performant web applications using Next.js, React, and TypeScript. Skilled in writing clean, maintainable code with a strong focus on performance, accessibility (a11y), and SEO. Experienced in translating design mockups into pixel-perfect interfaces and collaborating with clients on freelance projects to deliver high-quality user experiences.

Projects

Fakturify Marketing Website – Freelance Project   2025
Marketing website for a SaaS invoicing platform designed for Serbian freelancers and sole proprietors.

- Built with **Nuxt 3**, **Vue 3**, **Tailwind CSS**, and **Zod** for form validation
- Implemented contact form with honeypot spam protection and server-side API integration
- Markdown-based blog with dynamic routing for SEO-optimized content
- **Live:** fakturify.com

Learn Plus NGO Website – Freelance Project   2025
Website for a Croatian NGO organizing Erasmus+ educational programs across Europe.

- Built with **Next.js**, **TypeScript**, **Tailwind CSS**, and **Strapi CMS**
- Dynamic blog and content management with headless CMS architecture
- **Live:** learn-plus.org   **GitHub:** Repository

Personal Portfolio – Personal Project   2025
Modern portfolio website showcasing projects and technical skills.

- Built with **Next.js**, **TypeScript**, and **Tailwind CSS**
- Implemented spam protection: honeypot, rate limiting, and input sanitization
- Achieved 90+ PageSpeed Insights score and 100/100 Lighthouse accessibility score
- **Live:** zkrstic.dev   **GitHub:** Repository

E-Store – Personal Project   2025
Modern e-commerce website for a tea shop using headless architecture with WordPress and Next.js.

- Built with **Next.js**, **Tailwind CSS**, and **WordPress headless CMS**
- **Live:** e-store.zkrstic.com   **GitHub:** Repository

Basketball Coach Website – Freelance Project   2024
Professional website for renowned basketball coach Siniša Savović, the first trainer of NBA MVP Nikola Jokić.

- Built with **Next.js**, **SASS**, and **Resend API** for email contact form
- **Live:** probasketballcoach.com   **GitHub:** Repository

Rollo Website – Freelance Project   2024 – Present
Website optimization and maintenance for a PVC joinery company in Pula, Croatia.

- Built with **WordPress** and **Elementor** - improved mobile performance from 40 to 75 on PageSpeed Insights
- Executed **SEO optimization** and **link building** - raised keyword rank from page 2 to top of page 1
- **Live:** rollo.hr
